

## Empowering Customer Success Through Deep Expertise and Partnership with Oracle

### Why Precise

As an Oracle Gold Partner, we leverage our Oracle expertise and strategic relationship with Oracle to deliver advanced solutions and drive lasting business value to our customers.

Precise's Oracle technologists have deep experience with the products across the entire Oracle Technology Stack. We develop IT modernization and digital transformation strategy for our customers with Oracle technologies as an essential ingredient. We implement enterprise systems based on Oracle infrastructure, database, analytics, middleware, user experience and security platforms. We are among the first Oracle Cloud service providers in the US Public Sector. We help our customers develop Oracle Cloud adoption and migration strategy and implement innovative solutions on Oracle Cloud offerings.

Precise is a key strategic partner with Oracle at the US Department of Health and Human Services.

### Oracle Solutions & Services

- WebCenter Content

### Oracle Security

- Identity and Access Management
- Database Security

### Oracle System Management

- Oracle Enterprise Manager

### Oracle Cloud

- Oracle IaaS
- Oracle PaaS
- Oracle Cloud at Customer

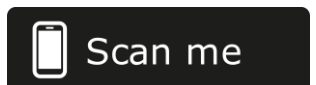

## How We Help Our Customers

- Our experts led the establishment of an Oracle Center of Excellence at a federal agency. We led the development of reference architectures in relevant technology disciplines and led the deployment of cloud and on-premise Oracle solutions. We also advocated changes in people and processes for the successful agency technology modernization leveraging Oracle technologies.
- The Precise team supported a large \$150M system integration program to modernize, streamline and automate a federal agency's mission critical regulatory processes using full stack of Oracle technologies.
- We led the migration of a large enterprise system from legacy infrastructure to Oracle Exadata and Exalogic engineered systems and significantly improved system performance, availability and operability.
- We implemented a National Food Safety Data Exchange to integrate federal, state and local regulatory partners in forming a more holistic regulatory oversight leveraging Oracle Database and Fusion Middleware technologies.
- We piloted a Cloud Disaster Recovery solution to Oracle Cloud that dramatically reduces the cost and time-to-deployment.
