Driving Digital Transformation Via Microsoft Solutions & Services

Why Precise

Leveraging our team of experienced Microsoft Azure and Office 365 professionals, we offer variety of cloud solutions and services on Microsoft technologies. The path to cloud adoption is unique for every enterprise.

There may be some cases where you contemplate large legacy migration in isolation; however, we are finding that migrations are usually part of large enterprise transformation effort. We help customers throughout their cloud adoption journey to achieve business agility and innovation. We also help our customers develop cloud native solutions on Microsoft technologies to achieve new levels of digital transformation and ultimately, business successes. We were highly praised by our customers in the areas of thought leadership, strategy, design, implementation, hosting, cloud management, and governance services we provided them along their journey to the cloud.

Azure and Office 365 Solutions & Services

Cloud Strategy & Readiness & Governance
- Data center modernization strategy and roadmap
- Hybrid cloud adoption strategy and reference architecture
- Azure readiness assessment, TCO analysis
- Cloud governance, establishment of a Cloud Center of Excellence

Azure Cloud Implementation
- Multi-account, enterprise hybrid cloud (on-premises data centers to Azure) design
- Infrastructure-as-code automation
- Backup and disaster recovery to Azure
- Cloud CI/ CD, DevOps process design, pipeline automation

Azure Migration
- Data center migration roadmap and planning
- Infrastructure, database, and enterprise application migration services to Azure

Azure Security

- Hybrid cloud security design on Azure for systems with moderate to high-impact security categorization
- ATO package preparation, security assessment

Cloud Management

- Multi-cloud single-pane-of-glass management

Office 365 Implementation

- Office 365 readiness and assessment
- Solution analysis, design and implementation
- Enterprise file sharing solution using SharePoint Online

How We Help Our Customers

Precise developed a data center modernization strategy, reference architecture and roadmap for a large federal agency, where Azure cloud is a key component to provide IaaS and PaaS services. We also developed a cloud decision tree to help our customers make decision on multi-cloud adoption.

We assisted our federal customer to establish the cloud Center of Excellence to improve the maturity of their cloud adoption, with the focus on cloud automation, reference architecture and standardization, and active user community engagement.
Precise designed an enterprise IaaS for a large government agency on Azure Government Cloud to provide a highly secure, reliable and easy to management cloud platform as the extension of their on-premises data centers.

We designed an enterprise file sharing solution on SharePoint Online for a large agency with many operation divisions. The solution considered sophisticated inner and inter-division, and public file sharing and data loss protection requirements.

About PRECISE SOFTWARE SOLUTIONS

Precise Software Solutions, Inc. (Precise) is a nimble and fast-growing SBA 8(a) certified small business focusing on strategy and IT consulting services to public sector customers. We are proud of our strong reputation for overcoming obstacles and delivering innovative, quality work with measurable results. For additional information, please visit us at www.precise-soft.com.
