

Deliver Your Cloud Success via End-to-End AWS Cloud Services

Why Precise

Precise is proud to be an **Amazon Web Services (AWS) Standard Consulting Partner** and **Public Sector Partner**. Leveraging our team of experienced cloud practitioners and AWS Certified Solution Architects, Developers and System Operations Administrators, we offer a broad portfolio of cloud solutions and services. We do not stop at placing existing infrastructure in the AWS cloud. We go beyond by helping our customers achieve new levels of agility, security, cost reduction, innovation, digital transformation and business successes via comprehensive, end-to-end cloud solutions and services.

We have been highly praised by our customers on the thought leadership, strategy, design, implementation, hosting, cloud management, and governance services we provided along their journey to cloud implementation. Our goal is your success in the AWS cloud.

AWS Solutions & Services

Cloud Strategy, Readiness & Governance

- Data center modernization strategy and roadmap
- Hybrid cloud adoption strategy and reference architecture
- AWS readiness assessment, including Total Cost of Ownership (TCO) analysis
- Cloud governance, establishment of cloud Center of Excellence

AWS Cloud Implementation

- Multi-account, enterprise hybrid cloud (on-premises data centers to AWS) design
- Infrastructure-as-code automation
- Backup and disaster recovery to AWS
- Cloud Continuous Integration/ Continuous Delivery (CI/CD), DevOps process design and pipeline automation

AWS Cloud Migration

- Data center migration roadmap and planning
- Infrastructure, database, and enterprise application migration services

Cloud Security

- Hybrid cloud security design for systems with moderate to high-impact security categorizations
- Authority to Operate (ATO) package preparation, including security assessment

Cloud Management

- Cloud configuration management
- Multi-cloud, single-pane-of-glass management

How We Help Our Customers

- We developed a data center modernization strategy, reference architecture and roadmap for a large federal agency in which AWS cloud is a key component to provide Infrastructure as a Service (IaaS) and Platform as a Service (PaaS) services.
- We assisted our federal customer with establishing a cloud Center of Excellence to improve the maturity of their AWS cloud adoption, with the focus on cloud automation, reference architecture and standardization, and active user community engagement.
- We designed an enterprise IaaS for a large government agency on AWS GovCloud to provide a highly secure, reliable and easy-to-management cloud platform as an extension of their on-premises data centers.
- We developed a cloud migration strategy and helped our customer move over 20 legacy, on-premises applications to AWS while significantly reducing operation costs and time-to-market.

About PRECISE SOFTWARE SOLUTIONS

Precise Software Solutions, Inc. (Precise) is a nimble and fast-growing SBA 8(a) certified small business focusing on strategy and IT consulting services to public sector customers. We are proud of our strong reputation for overcoming obstacles and delivering innovative, quality work with measurable results. For additional information, please visit us at www.precise-soft.com.
