SEWP VI Overview

NASA Solutions for Enterprise-Wide Procurement provides federal agencies and approved contractors access to Information Technology, Communication and Audio-Visual solutions and services.

SEWP VI consists of three scope categories:

Category A – ITC/AV Solutions

Category B – Enterprise-Wide ITC/AV Service Solutions

Category C – Mission-Based ITC/AV Service Solutions

Precise Software Solutions, Inc. holds a **Category B – Enterprise-Wide ITC/AV Service Solutions** contract.

About Precise

Precise Software Solutions, Inc. is a federal technology and services company that helps government agencies solve complex challenges through digital transformation, IT modernization, software development, data, cloud, cybersecurity, and mission-focused solutions.

Precise delivers practical technology solutions designed to improve operations, modernize systems, and support better outcomes for government missions.

Fair Opportunity

Contractors are provided fair opportunity at the individual order level as appropriate under FAR Part 16.505(b), including use of NASA SEWP Request for Quote tools.

Ordering agencies are responsible for maintaining documentation supporting their order-selection decisions.

What's in Scope for SEWP VI?

SEWP VI is designed to provide a broad suite of Information Technology, Communication and Audio-Visual solutions and services.

Precise holds an award under: **Category B - Enterprise-Wide ITC/AV Service Solutions**

For assistance determining whether a requirement falls within the scope of SEWP VI, customers may contact the NASA SEWP Program Management Office.

Email: help@sewp.nasa.gov

How to Obtain a Quote

Program Support & Order Assistance

For assistance with an existing Precise SEWP VI order, technical or software support, post-delivery questions, or troubleshooting an order issue, contact the Precise SEWP VI Program Management team listed above.

Ordering Process

The internal ordering process varies by federal agency.

1. Define the Requirement

The customer identifies the required ITC/AV services.

2. Create the Purchase Request

The ordering agency prepares its required procurement documentation and funding information.

3. Conduct the Acquisition

The agency procurement office conducts the appropriate fair-opportunity process and issues the Delivery Order.

4. SEWP Processes the Order

The NASA SEWP Program Management Office reviews, processes, and tracks the Delivery Order and forwards it to the selected Contract Holder.

NASA SEWP does not issue Delivery Orders. Orders must be issued through the ordering agency's procurement office.
